

Dear Sirs or Madams:

I am writing in response to a notification I received that the FCC is now proposing to expand the LPFM broadcast service to take priority over current FM translator service. It is a common feeling that many advocates of LPFM feel that there is little

value in national or regional services, such as K-LOVE, which is heard on FM translators. I do not agree with this stance and think that, in fact, the results would be profoundly detrimental to our local communities and nation.

Besides the fact that a huge proportion of my acquaintances listen to K-LOVE on a regular basis, there are several other reasons that hindering the broadcast of K-LOVE would have negative effects. K-LOVE is only one of two Christian-based radio stations in the Oklahoma City area. Whether a person agrees with Christianity or not, the effects of the ideals encompassed by Christianity (charity, kindness, good citizenship, family values) benefit society as a whole.

In conclusion, it is my desire that no actions be taken by the FCC that would hinder the broadcast of K-LOVE. Thank you for your attention to my comments.
